MONITORAGGIO ESITI PROVE DISCIPLINARI

Il Referente del PDM
Prof.ssa Caporale Angela

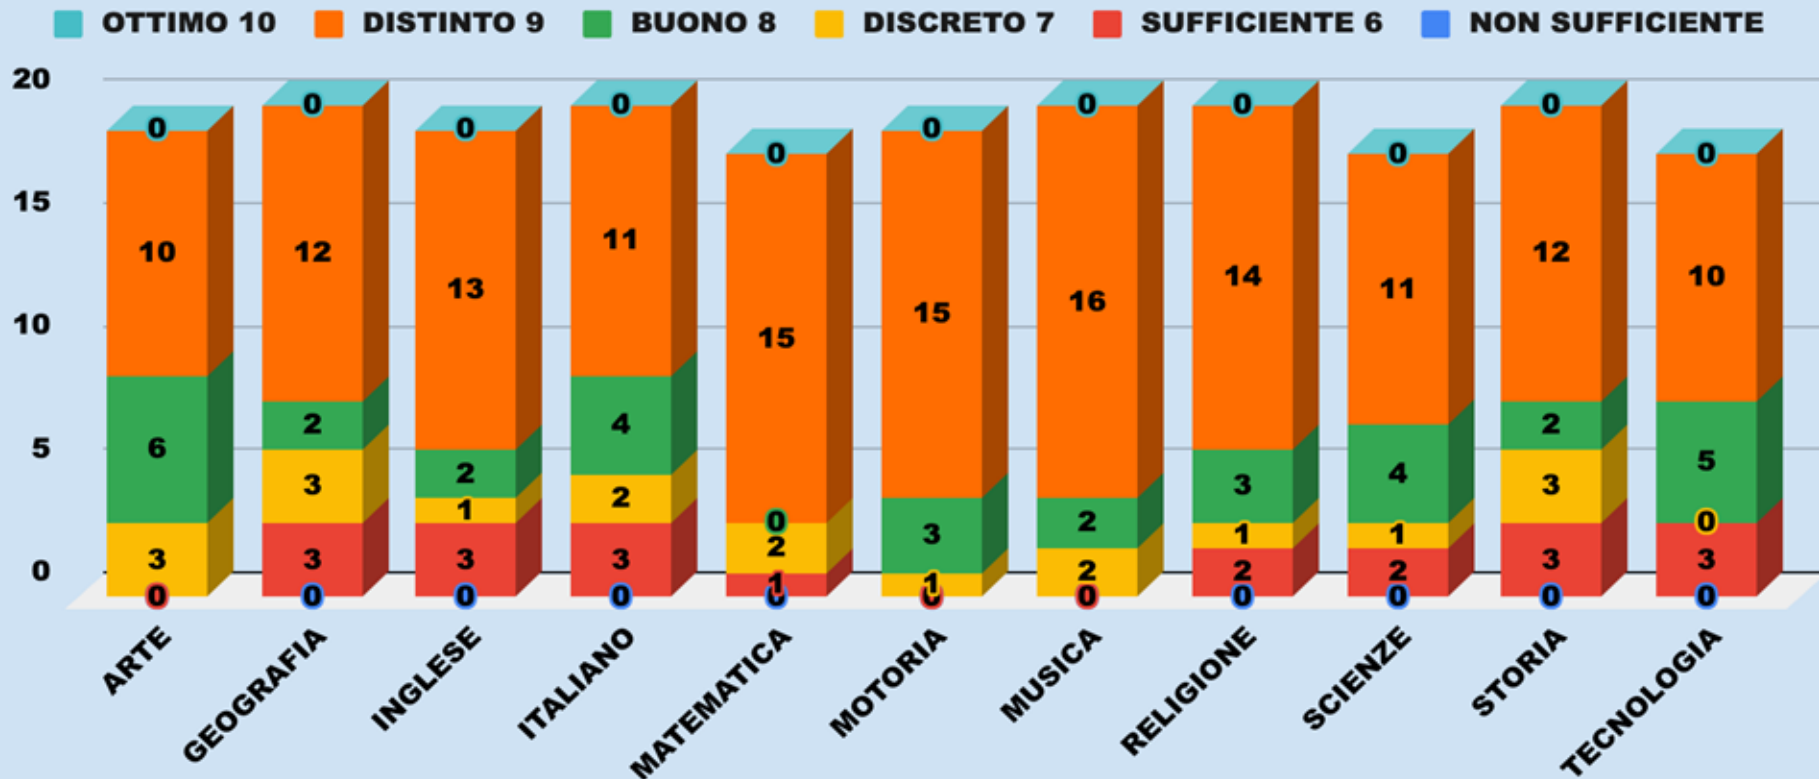

L'analisi del report dettagliato, completo di tabelle comparative per singola classe e relativi grafici di distribuzione delle valutazioni come di seguito allegate, evidenzia un quadro generale estremamente positivo per la scuola primaria, con elementi di eccellenza e un'adeguata tenuta dei livelli di apprendimento. Di seguito si riassumono i punti chiave emersi dalla rilevazione:

- **Assenza di criticità gravi:** In tutte le classi e le discipline monitorate, la quota di alunni "Non Sufficienti" risulta azzerata o del tutto marginale, a testimonianza dell'efficacia delle azioni di recupero e consolidamento svolte durante l'anno.
- **Profili di eccellenza nelle classi terze:** Si segnalano prestazioni di altissimo livello nelle classi 3E e 3G. In particolare, la 3E mostra una concentrazione eccezionale di giudizi "Ottimo" (pari a 12 alunni in Musica e Tecnologia), mentre la 3G si distingue per un forte posizionamento nelle fasce "Distinto" e "Ottimo" sia nelle materie scientifiche sia in quelle espressivo-tecnologiche.
- **Distribuzione omogenea nelle classi prime e seconde:** Le classi prime (come la 1A) e seconde (come la 2N) mostrano una curva di rendimento più bilanciata, con una fisiologica concentrazione nella fascia medio-alta (giudizi "Discreto" e "Buono"), ottimale per il consolidamento dei rispettivi anni di corso.
